 Alternate Emergency Phone Numbers

**IMPORTANT:** The following alternate emergency phone numbers replace the use of “911” when calling from a cell phone. These numbers should be used for emergencies only. Prior to beginning operations in an applicable area, it is recommended that you program the number in your cell phone for easy dialing. If you are working in an area not listed below, contact the local police department and ask for the “seven-digit emergency line.”

For general inquiries and routine reports, contact the police department’s main number (call information).
